Current as of 8.15.24

**2024 ESG Legislation**

**Introduction**

The RAA monitors state legislative activity for bill and resolution filings pertaining to environmental, social and governance (ESG) issues which may impact the broader insurance market.

Below are three tracking charts. The first chart lists legislation directly impacting (re)insurers either by specific reference or by definition of the terms. The second chart lists other ESG bills which may have smaller impact on the broader industry. Bills on the second chart could be amended at some point to create a direct impact upon (re)insurers. The third chart lists miscellaneous ESG bills which currently do not affect the industry, but which we are monitoring just in case that changes.

The RAA has classified bills based upon their various impacts. Given the inherent limitations of tracking charts and the speed at which legislation moves in state legislatures, we urge users to review the source documents and check the state legislature websites for the latest version of the legislation.

**Please note:** the Pro/Anti column on the chart denotes whether the bill is “pro” ESG or “anti” ESG and does not necessarily reflect the RAA’s position on the bill.

**Groups**

Group 1: Bills pertaining to the investment of state funds. For anti-ESG bills, these are bills that require state/political subdivision funds be divested from ESG promoting entities as defined in the bill. For pro-ESG bills, these are bills that require divestment in/identification of companies not meeting certain pro-ESG criteria.

Group 2: Bills that require state/political subdivision contracts not be given to ESG promoting entities as defined in the bill.

Group 3: Bills that prohibit businesses (that do NOT include insurers by the bill's terms) from penalizing or preferring customers based upon the company's ESG policies.

This chart is a summary of various legal authorities, with links to original sources. It is not and is not intended to be legal advice. The RAA encourages users to review the source documents and obtain legal advice as necessary.

**2024 ESG Legislation**

Group 4: Bills that directly impact (re)insurers either by specific reference or by definition of the terms within the bill.

Other: Other ESG Bills of interest to insurers
